SafeAir[™] MINI

Portable Mini Air Purifier

Mini but Mighty
Design Purifies
Indoor Spaces Up
to 500 Square Feet!

Includes USB Adapter
to Enjoy Clean Air at
Home & On-the-Go!

Unleash powerful and portable purification at home and on-the-go with the new **SafeAir[™] Mini Air Purifier**. Inspired by the way a thunderstorm naturally purifies our outdoor environment, SafeAir[™] Mini uses advanced micro-sized technology to electronically generate super powerful **activated oxygen** to attack and destroy even the most stubborn indoor air pollutants. Additionally, SafeAir[™] Mini also adds negative ionization for a fresh air feeling around the clock.

Effectively Reduces Common Indoor Air Pollutants within Minutes:

SMOKE

PET DANDER

ALLERGENS

MOLD

Product Highlights & Benefits:

- Easy to Use - Plug In, Power On and Purify!
- Effective Up to 500 Square Feet.
- Removes Odors, Allergens and Bacteria.
- No Filters or Major Maintenance Required.
- Compact Size Fits in the Palm of Your Hand.
- Includes an 8ft USB Adapter Cord for Multi-Purpose Use at Home or On-the-Go.

SafeAir™ ULTRA

Air Purification System

Unleashes 3 Proven & Powerful Purification Technologies:

Destroy Germs & Bacteria with **Photo Catalytic Oxidation (PCO) Technology** - Used on the NASA Space Shuttle!

Release a Safe Concentration of **Active Oxygen (Ozone)** to Fight Stubborn Odors, Smoke & Irritating Allergens.

Restore Vibrant & Rejuvenated Air with **Negative Ions** - Just Like Breathing Fresh Air in Nature!

Transform even the worst indoor air with the power of not just one, but **3** proven purifying technologies working together as one! **SafeAir™ Ultra Home Air Purifier** was created as an efficient solution to reduce odors, remove airborne infectious bacteria and effectively create a fresh air feeling throughout your entire space. Inspired by the natural purifying powers of a thunderstorm in nature, SafeAir Ultra unleashes **activated oxygen** and **negative ions** to leave your indoor environment feeling rejuvenated and fresh. Additionally, SafeAir also harnesses NASA derived **PCO Technology** to destroy bacteria to promote a healthy breathing space - perfect for homes or businesses!

Product Highlights & Benefits

- Effective Up to 3,000 Square Feet.
- Features a Washable Particle Filter.
- Customizable Room Size & Fan Settings.
- Outperforms Outdated HEPA Filters.
- Safely Uses the Combined Purifying Powers of PCO Technology, Activated Oxygen & Negative Ionization.
- Rapidly Destroys Odors, Allergens, Bacteria & Viruses from Indoor Air.
